	APPROVAL OF STATE ENGINEER
revoor and measof lower for main the the public	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the wing limitations and conditions: This permit is issued subject to existing rights and is further subject to exaction if and when water can be furnished by an entity such as a water district a municipality engaged in furnishing water. A totalizing meter must be installed maintained in the discharge pipeline near the point of diversion and accurate surements must be kept of water placed to beneficial use. The totalizing meter to be installed before any use of water begins, or before the Proof of Completion work is filed. It is understood that this right must allow for a reasonable earing of the static water level. The well shall be equipped with a 2-inch opening measuring depth to water. If the well is flowing, a valve must be installed and intained to prevent waste. This source is located within an area designated by State Engineer pursuant to NRS 534.030. The State retains the right to regulate use of the water herein granted at any and all times. This Permit does not extend the permittee the right of ingress and egress on lic, private or corporate lands. The issuance of this permit does not waive the requirements that the permit der obtain other permits from State, Federal and local agencies. amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
	o exceed 0.02 cubic feet per second but not to exceed 1.46
	· · · · · · · · · · · · · · · · · · ·
	k must be prosecuted with reasonable diligence and be completed on or before January 28, 1988
Proo	f of completion of work shall be filed on or before February 28, 1988
	lication of water to beneficial use shall be made on or before
Proo	f of the application of water to beneficial use shall be filed on or before
Мар	in support of proof of beneficial use shall be filed on or before
